

ABOUT LEYDI DELGADO

As a first-generation student graduating from CSULB in 2025, design has been more than a career path — it's been my way of building something meaningful out of resilience and creativity. I bring a strong background in hospitality, bartending, and customer experience, which helps me design spaces and experiences that feel welcoming, intuitive, and memorable.

My Design Strengths

- Spatial Planning (AutoCAD, Revit)
- 3D Modeling + Rendering (SketchUp, Enscape, Twinmotion)
- Experiential & Environmental Graphics
- Wayfinding Systems
- Branding + Visual Identity
- Hospitality Design (menus, pop-ups, bar concepts)
- UI / Layout Design
- Creative Strategy + Presentation Design

Why I Design

I believe design should make people feel something — comfort, excitement, curiosity, or connection. Every project I take on is an opportunity to create an experience with purpose, emotion, and clarity.
